CHEMICAL PROCESSING CUI, CHEMICAL AND SOLAR PROTECTION

Challenge

Hill Brothers Chemical Co. needed a product that would provide solar protection, mitigate CUI and withstand the harsh chemical environment.

The job consisted of 1.5 inch schedule 80 black iron pipe carrying Chlorine gas.

Results

"The professional look and the ease of removal and re-installation required for the line inspections are what I like. Additionally, the CUI problem we have will be solved. The product installation was easy and the crew liked it, and it looks great."

-Chuck Hill, Operations Manager

Solution

Dragon Jacket Insulation™ Pipe Insulation System : S2-Silver

- Straights
- Tee's
- Flanges
- Banding Tool
- 90's
- Bands
