

IS YOUR INSULATION SABOTAGING YOUR HEAT TRACE SYSTEM?

Heat trace systems are only as good as the insulation that covers them. And that is as true on day one as it is ten years into the future. *Is your insulation up to the task?*

✓ IS IT WATERPROOF? ✓ IS IT FIREPROOF? ✓ IS IT DAMAGE PROOF? ✓ IS IT DRAGON JACKET?

WHY SHOULD YOU CHOOSE DRAGON JACKET TO SUPPORT THE LONG-TERM PERFORMANCE OF HEAT TRACING SYSTEMS?

DRAGON JACKET IS A TRUE WATERPROOF SOLUTION

Our insulation is 100% waterproof, so it will never interfere with the effectiveness of heat tracing.

DRAGON JACKET'S STATIC-R VALUE NEVER DEGRADES OVER TIME

Dragon Jacket's Static R-Value stands up to the tests of time, weather, contact, and vibration. The calculations used to identify your system's required heat trace componentry will never change due to failing insulation.

DRAGON JACKET THERMAL MANAGEMENT CAPABILITIES ARE SECOND TO NONE

Our insulation's thermal management is so sound, many projects actually need less heat trace than is required with standard insulation solutions, leading to lower total installation and operating costs.

DRAGON JACKET IS CLASS-A FIRE RATED

This is the highest achievable rating for fire resistant products, which means Dragon Jacket Insulation is safe to use with heat trace systems.

DRAGON JACKET ENGINEERS CAN OPTIMIZE DESIGN SOLUTIONS FOR HEAT TRACE PROJECTS

We engineer our products to your exact specifications using CAD software to provide customized solutions for awkward shapes and moving parts.

DRAGON JACKET IS EASY-TO-INSTALL, DURABLE, REMOVABLE, AND REUSABLE

With Dragon Jacket no additional cladding is required. Simply install over piping, secure with metal bands and call it a day. Remove, inspect and reinstall in minutes using standard tools and personnel.

IF YOU'RE GOING TO INVEST IN A HEAT TRACE SYSTEM, BE SURE YOU SUPPORT ITS FUNCTIONALITY OVER THE LONG-TERM WITH **DRAGON JACKET** INSULATION!

5-Year Limited Product Warranty. FDA Approved for Incidental Food Contact. Made in the USA.
